Exchange Student Council Seeks Two Juniors

The Exchange Student Council met Thursday evening, January 14th, in the Grayling High Alumni Lounge. Mrs. Don Koch, PTA representative is the new chairman. The group decided first to consider bringing an exchange student here for the next school year. This costs \$150, and a host family must be provided to furnish room and board.

Second, if possible, any remaining money will be divided between two Junior Class members for the summer exchange program. This part of the program costs \$725 per student. Bill Joseph was the 1963 representative to Germany, Cheryl Smock in 1964 the student to Spain.

The Council has provided funds as pledged by local groups, but never the total cost. The remainder is provided by the student's own savings. The Council hopes all groups have had Cheryl give a program. Her talks, slides and music will best explain the exchange program sponsored by the Youth For Understanding Teen-Age Program sponsored by the Michigan Council of Churches.

Mrs. Joseph Stripe, Council Teacher representative, has announced to the Junior Class it is time to make application. An essay on why the student would like to be Grayling's representative abroad will be due the first part of February. Parents, if your son or daughter is in the Junior Class, qualifies with good scholarship record, is active in school, church and community efforts, interested in people, and willing to accept responsibility, encourage them to apply.

Clubs and churches have again been contacted. Will your group again pledge to help this cause, remembering we would like to give this wonderful opportunity to two deserving Junior Class members, besides having our first full-year exchange student here? Checks can be made out to "Exchange Student Council," Don Gohro, Treasurer. For any further information contact Mrs. Don Koch, 348-5768.

County Fire Fighters To Appear On TV

Arrangements have been completed with TV-9, Cadillac, by the Crawford County Chamber of Commerce to present a second television program.

This presentation will take place at 12:00 noon next Thursday, January 28th on the "Accent" show. At this time the "Accent" will be on organizations of this area. Appearing with Chamber President, Carol Wert, will be representatives of the Grayling and Frederic Volunteer Fire Departments, who will tell not only of their activities as Firemen, but of the additional projects undertaken by their organizations as a service to their communities.

Unfortunately, time will not permit proper public acknowledgment of the many other deserving groups and clubs, each of whom so willingly do their part in making the community a better place in which to live. However, the Chamber is none the less grateful for the united and cooperative effort put forth by the people of the area. In a community where every citizen shares with his neighbor a feeling of pride in being a part of that community, continued growth and expansion for economic betterment is assured.

Grayling Kiwanis Club Observes 30th Birthday On Monday Evening

By Wes LaGrow

With a hundred percent turnout of membership, the Kiwanis Club of Grayling Monday evening at the Chief Shoppenagons Motor Hotel marked the 30th anniversary of their receiving the club charter.

Only six members of the entire club roster of both active and privileged members were absent to hear the main speaker of the evening, E. F. "Pete" Fletcher of Bay City, the immediate past Governor of the Michigan District of Kiwanis.

The birthday banquet got underway with the singing of "America" led by Don K. Gohro with Dr. Leonard Allison as pianist. The invocation was given by Rev. Jay Doty.

The anniversary banquet was followed by the cutting of the birthday cake by those charter members in attendance followed by group singing. President Don

Jansen conducted a short business meeting and read congratulatory communications from the National President, Secretary and Treasurer as well as from the area Lieut. Governor.

President Don then introduced guests which included six members from the West Branch club which the Grayling club sponsored way back in 1935. Their group made the meeting also an inter-club session.

The meeting, which was held in the Viking Room, was next honored by the presentation of four of the six charter members who are still members of the club. This was handled by vice president Bruce Carlson. He presented and spoke a few words about each. The four in attendance were: Dr. J. F. Cook, Emil Giegling, Fred Welsh Sr. and T. P. Peterson. The other two charter members not in attendance were Dr. C. G. Clippert and Willard Cornell. Dr. Clippert was the moving force behind the beginning of Kiwanis here and served as the club's first president. He was detained from attendance by reason of health. Also introduced was Dr. Stanley A. Stealy who missed being a charter member of the club by only one month.

These introductions were followed by the address of the evening by past Governor Fletcher. He spoke of the great need for more and further work by Kiwanis to aid in solving some of the pressing needs of our society today.

The Grayling club received its charter exactly 30 years ago Monday night, January 18, 1935. Also marked by the anniversary banquet was the 50th anniversary of Kiwanis International which was founded on January 21, 1915.

In one matter of business handled at the meeting, Don Gohro announced his resignation as the club's representative on the Grayling Student Exchange Council. Robert Bovee was named to replace him. It was also announced that next week's program at the meeting would feature films of the Indianapolis 500 Mile Auto Race.

40th Carnival Plans Progress

Here in the Grayling area where the expanding ski industry was pioneered and where the best of skiing has always been available to the public at a moderate cost, the high point of the winter season is fast approaching.

Here for the past 39 years on the second weekend in February, the Grayling Winter Sports Carnival has been celebrated. This February 12, 13 and 14, will mark the 40th Annual of these events.

Highlight of the weekend will be the selection of the 1965 Miss Michigan Winter Sports Queen from among the contestants representing many communities of Michigan where participation in winter sports is just considered a part of community activity.

This year's contest will introduce some new features intended to create renewed interest as well as more extensive participation from the teenagers.

Contestants vying for the title of Miss Michigan Winter Sports Queen 1965 must be from the junior or senior class of their high school. They must be active in winter sports and will be required to exhibit their abilities in their chosen winter sport to the contest judges. This item, however, will not be a major factor in determining the judges' final decision.

The 40th Annual Grayling Winter Carnival Committee headed by Mrs. Walter Truettner, Melvin Nielson and Lawrence LaGrow have been working towards a successful carnival weekend for the past several weeks. More detailed information regarding the weekend's plans will be published in coming editions.

Youth groups from Detroit and Saginaw were the first to enjoy the toboggan runs at Grayling Winter Sports Park this past weekend. Conditions were ideal for a fast run and a time of 28 seconds for the full run put the maximum speed during the run at near the 100 mile per hour mark. Skating was good and while skiing conditions were only fair there was a number of skiers.

An excellent snowfall greeted the first "Tea and Ski" day on Tuesday when Grayling ladies hosted some twenty ladies from Gaylord. This was the first in a series of guest days when the Grayling lady skiers will invite the ladies of neighboring communities to be their guests and see the many improvements

which have been made at the Grayling Winter Sports Park this year.

The Thursday and Friday dinners at the park were well received last week. A number of parents enjoyed their chicken dinners inside while watching the youngsters skiing on the lighted slopes Thursday night. There is no skiing on Friday night to avoid competition with our Grayling basketball games but many folks came for the fish or shrimp dinners either before or after the game.

Many good comments have been received on the new high-capacity lighting system on the hills which is being tested this year. If it is as successful as it seems at first trial it is hoped that all slopes will be lighted in the same manner next year.

Rapid City At Frederic Friday

The Frederic Eagles are to play hosts to the Rapid City Bobcats at the Frederic High gym this coming Friday night, January 22nd.

Last Friday at the Frederic gym, the Eagles lost a very close ball game to the Central Lake Trojans by a 74 to 70 count. Frederic was without the services of two starting regulars which hurt their chances very much. Both Jim Gauthier and Jim Weaver were on the sidelines.

Central Lake jumped off to a 27 to 17 first period lead, moved out to a 47 to 35 halftime bulge. The Eagles of Ron Frael came back with a good second half effort outscoring the visitors 38 to 27 but fell short by four points.

Rick Post with 22 points was Frederic's leading scorer. Phil Lodge and Fred Hinkle added 14 points each and Charles Bearss 13. Powers Peyton with 22 was high for the Trojans.

The evening's opener was a junior high contest moved from Wednesday at Central Lake to the Friday night slot at Frederic.

The Central Lake Juniors were just too strong for the Frederic junior high to handle. The score was 40 to 23. Garrett Bailey with 13 points was high man in the game and for Frederic. Lee Youngmans with 8 was top scorer for the Central Lake junior high team.

NEW STORE OPEN

A & P Marks Grand Opening Of Grayling Supermarket

Hundreds of area residents were on hand Tuesday, January 19th for the grand opening of A & P's newest retail outlet at 207 S. James Street in Grayling.

Appropriately decorated inside and outside, a festive air prevailed when the doors were officially opened at 9:00 a. m. giving housewives their first glimpse inside this sparkling new store.

Attending the opening ceremonies and taking part in a ribbon cutting ceremony was Grayling's Mayor Dr. J. F. Cook and City Manager Harold S. Cliff. Also in attendance was a group of A & P officials from Grand Rapids including General Superintendent T. J. Fiebach, Sales Manager M. A. Young, Personnel Manager George Brucker and Area Supervisor R. Misner.

At noon last Tuesday, the A & P Company was host at a grand opening luncheon held at the Chief Shoppenagons Motor Hotel.

In attendance besides visiting company officials and Grayling store manager Richard Huber were city and county government officials, civic leaders and Grayling businessmen.

The new building with attractive Early American front replaces the company's well known landmark on Michigan Avenue, which was closed to business Saturday night, January 16th.

Mr. Fiebach, who heads the company's Grand Rapids Unit which services stores in Western Michigan, said the new store was designed after a careful survey of the food needs of consumers in this area. "We have put forth every effort to make this one of the most complete food shopping centers in this area," he said. "We hope our customers will be as pleased with it as we are."

The expertly engineered displays utilize space to such an advantage so as to provide facilities for handling an enlarged assortment of frozen foods, meat, fish and ready-to-eat items.

Included in the setup is a complete self-service meat department with a refrigerated processing room for the preparation of meats. This department will carry a full line of fresh and smoked meats, poultry and fish, as well as luncheon meats.

The modern multi-deck produce case is designed to keep fresh produce in the peak of condition until it reaches the consumer.

Another department of particular interest to the busy housewife is the frozen foods department featuring a new type reach-in refrigerator with automatic glass doors. This multi-level display provides a much greater capacity than the standard case and places merchandise at eye level. The five shelves are stocked with a variety of fresh frozen fruits and vegetables, juices and ice cream.

Richard Huber, former manager of the Michigan Avenue store has been placed in charge of the new store.

Huber is a native of Ludington where he first started with A & P as a clerk in 1949 and served until he entered military service in 1951.

Reduce Charges Against Officers

According to a release received by the Avalanche from a Lansing Citizen's Committee the original eleven allegations made against Gen. Ronald McDonald, Gen. Carson Neifert and Col. Versel Case have been reduced to three.

It states specifically, one of the charges has to do with the manner not the results of land exchanges in which the state received much needed land for undesirable land. And another with the transfer of funds from armories to Camp Grayling for minor construction for the benefit of army units when in training.

According to the release during the past year General McDonald has been in office as Quartermaster General and subsequently Adjutant General, with General Neifert succeeding him as Quartermaster General, the Michigan Military Establishment has made its greatest forward strides. Eight new armories were constructed with two more under construction. 105 million in federal funds were received by the State for military purposes. Camp Grayling facilities have been substantially improved which has resulted in increased use by up to 20,000 additional men each year from other states which has reduced Michigan's costs. Michigan has national recognition as one of the outstanding Guard organizations in the nation, and all this has been done with Legislative appropriations reduced by nearly half a million dollars.

The release further states the Auditor General's office in 1962 conducted an audit of the Military Establishment and approved the very practices which are now being used to crucify the three officers and still no fraud or criminal charges have been indicated.

A hearing on the charges is to be held on February 15th at 1:30 p. m., Lewis Cass building, Lansing.

Woman's Club

The Woman's Club met Monday evening, January 18th, at the clubhouse. President Mrs. Glen Fenton presided.

Plans for the Winter Sports banquet put on by the club were made, also the proposed Trade Show to be put on jointly with the Kiwanis Club in the spring was discussed.

Mrs. John Latuszek introduced Mrs. Joseph Stripe, club member, who presented the program on Costa Rica. Her talk gave amusing sidelights and interesting details on this entirely different Spanish speaking country which she visited this past summer. Her slides were equally delightful.

Special guests were Mrs. Altha Heric, Mrs. William Christenson, Mrs. Phil Miller, Mrs. Les Powers, and honorary members Mrs. T. P. Peterson and Mrs. E. J. Olson.

Lunch hostesses were Mrs. Marvin Miller and Mrs. Carl E. Johnson. A cookie tree was used as an unusual centerpiece.

FIREMEN FIGHT CONTROLLED FIRE

The Grayling Fire Department was called to a controlled fire Monday evening, January 11th. The former Jess Easternman home, presently owned by the Conservation Department, was set afire for a drill.

Fifteen firemen answered the call of the fire whistle, only four of whom knew that the fire was planned as a drill. It is felt that valuable experience was gained by the members of the department according to Kip Papendick, Assistant Chief.

LETTERS TO THE EDITOR

Following is a letter received by Dan Boone, son of the Roy Boones of M-72 East, when he wrote to Governor Romney expressing his views on the issuing of doe permits:

November 18, 1961
Mr. Daniel Boone
Star Route
Grayling, Michigan
Dear Mr. Boone:

Thank you for your views on Michigan's system of issuing permits to hunt antlerless deer. A good many people have expressed the belief that the system is unfair, and many have suggested a rotation so that no one could obtain a second permit until all hunters had received a first permit.

Closer study of the situation shows that it is not quite so simple as that. The law requires that quotas be established on an area basis, and there is a considerable public demand for relatively small areas to provide an even distribution of hunters. The most important objective is to obtain a properly regulated kill of antlerless deer to insure the welfare of the deer range and the deer herd. It is also important to give hunters an opportunity to take additional deer in the areas where they prefer to hunt.

One important fact is often overlooked: The people who get permits "every year" are those who apply for the less popular areas, and those who "never" get a permit are those who apply for the areas most in demand. Anyone who filed a proper application for Beaver or Bois Blanc Islands received a permit, and could have done so for many years before. This year there were eight such unfilled areas, and fifteen more in which at least 3/4 of the applicants were successful. On the other hand, there were six areas in which fewer than 1/4 of the applicants received a permit. In two other areas, only 1 applicant in 6 could be drawn.

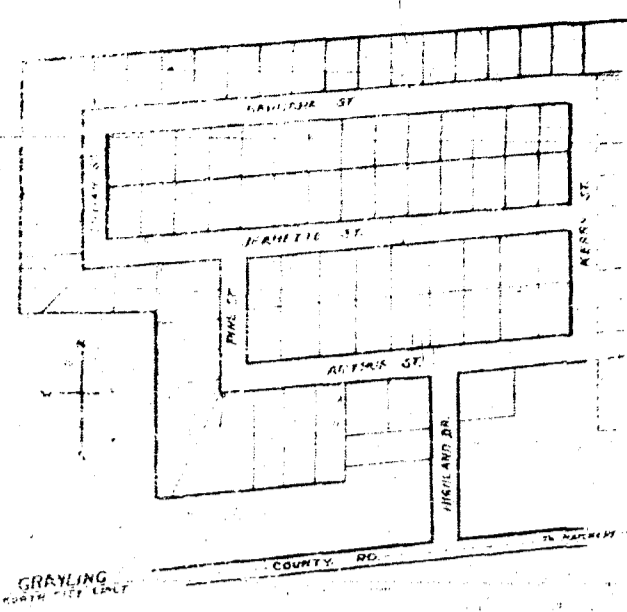

Since the number and size of the areas change from year to year, it would not be feasible to rotate the hunters by areas, yet this should be done to be entirely fair. In some areas, a full rotation would take six years. And, of course, hunters often change their areas.

There are some other complications. Some deer hunters don't buy a license every year, and new hunters are continually being recruited. Should a 14-year-old, hunting his first season, be on the same basis as an old hunter who had already gone without the right to apply for a year or more? There is no simple, inexpensive way of keeping track of a half-million hunters, many with the same names, their addresses changing frequently.

If your two-year proposal were followed literally, without regard for areas, less than half the desirable number of permits could be issued in remote areas, yet many hunters in the most popular areas would continue to be disappointed. After years of studying the situation, considering systems used elsewhere, and looking for the best method, the Department of Conservation is convinced that the present method is the fairest and most workable that can be used under Michigan conditions. Each hunter each year has an equal chance with every other applicant for the area of his choice. The odds for success vary with the area, but I think that sportsmen should be willing to abide by the luck of the draw as long as the drawing is an honest one. I am personally satisfied that the drawing is scrupulously honest, and that the criticisms of the system are based on a lack of understanding of the facts. I am sure that the Department of Conservation would be quick to change the system if they knew a better way — and I am also sure that the moment they did make such a change as you suggested, there would be a storm of protest from hunters.

In closing, I would like to congratulate you on having a name worth living up to. You might be interested in knowing that David Crockett, who also has a famous namesake, is a modern naturalist with a strong Michigan background.

Sincerely,
George Romney

Let's Get Acquainted

Editors Note — This is another in a series of articles to acquaint our readers with the background of the new teachers in Crawford County Schools.

Mrs. Ivah Raser Curle came to Grayling this year to teach first grade. She is married to William Curle and they have one daughter, Marilyn Eby of Holly.

Mrs. Curle was born in Jackson, Michigan. After going through grade school in a one-room rural school she went on to high school in Pontiac. After high school she went on to Oakland County Normal School.

After two years of teaching in a "Little Old Red School House" she left teaching to get married and have a family. She returned to teaching eight grades in a one-room school after a three year absence and continued there for eleven more years. During this time she was also studying at Michigan Normal School, now Eastern Michigan University, in Ypsilanti, where she received her Bachelor of Science degree in 1949.

Prior to receiving her degree, Mrs. Curle moved into the Holly Area Schools and taught first grade for eighteen years before moving to Grayling. Our "new" teacher then came to us with 31 years teaching experience.

Material Abundance is Not Enough

As always with a new year begun and an old one just behind us, there was, and is, a flood of reports being issued on what had happened in this nation and the world along with all manner of forecasts as what is to come in 1965.

Many of these summaries dealt with the progress of the U. S. economy during momentous 1964. In area after area, industry after industry, there were notable gains, some of a truly spectacular dimension. Records fell like tenpins. All in all, despite certain dark spots, the system we call free enterprise brilliantly demonstrated its astonishing strength, vigor, purposefulness, and imagination. And the material results were fully shared by the many, not just the few. In sum, the system demonstrated once again, and perhaps more effectively than ever before, its superiority over any yet devised by man.

Other backward looks concerned themselves with a world situation in which question mark is piled upon question mark, and confusion compounds confusion. It is very certain that reappraisals of our policy have now become unavoidable — toward Asia, Europe, Latin America, almost everywhere. Far-reaching changes took place in the world during the 12 brief months of the year. Powerful as we are, rich as we are as a nation, well meaning as we may be, there is no room for complacency.

And that can be said of our domestic affairs as well as our posture in the larger world. It is very easy, when incomes are high, the standard of living is at a peak, and we have reached an astonishing degree of material well-being, to become complacent and to let values become warped and atrophied.

The point is that material abundance is not enough. It is important — vastly so. But the long-run strength of a people cannot be measured just in terms of goods and services. It must be measured, rather, in what goes on within our hearts and minds. If human freedom, here or anywhere, is to be perpetuated it must continually be fought for. The weapons are many — self-reliance, a sense of individual responsibility, a concept of duty that has nothing to do with material advantage, and spiritual belief. These, among others, are eternal verities.

It may be hard to remember and to act on this in an era in which everything is huge — government, business and industry, the labor organizations, the farm groups. The individual, some may think, is dwarfed by the forces that surround his life. And so he will be if he takes that attitude. The very conditions of today present the individual with his greatest challenge. He, in the mass, decides what his nation shall be like. He, in the mass, decides, for example, whether he is to supinely accept a welfare state in which he can only be a statistic whose rights and liberties grow ever fewer.

We need to constantly remember and reaffirm those principles and virtues which built this nation, during years in which living was incredibly hard and the price paid for freedom was blood and travail.

The Detroit Free Press Camera Caravan road the New York Central snow train into Grayling Sunday. The feature, which includes a picture story of the town it visits, will appear in all editions of next Sunday's Free Press. The Caravan for 23 months has been visiting a different Michigan town each Sunday. The Caravan photographer who visited Grayling was Bert Emanuel, whose first visit to Grayling surprised him. He said he hadn't realize Grayling had such an elaborate winter sports program. Yes, Emanuel said he would be back again for a day of tobogganing, not work.

Thelma Papendick will wear the regal robes as winter sports queen for 1942. Miss Papendick is the daughter of Sheriff and Mrs. John Papendick. She is a graduate of Grayling school and at present is a reporter and bookkeeper at the Avalanche office. Anyone would know that she is good-looking, and we are glad to add that she is an intelligent, refined and sensible young lady. She does some skating, but is especially fond of skiing and tobogganing.

Clare Madsen had an experience at Lake Margrethe. Madsen was hauling a load of supplies across the lake to where he was putting up some timber at the north end of the lake. He says he felt the pickup sinking and got out of the car and watched it settle to the bottom. It took a day to get it out.

Stanley Madsen seems to be the champion fisherman in these parts as far as getting huge fish. One day last week he came home with a pike that weighed 18 1/2 pounds and measured 41 1/4 inches in length and 17 inches around its largest part. A few days later he speared one that weighed 15 pounds and was 38 inches long and 18 inches around. Both were speared through the ice at School Section lake.

Mrs. Leo Koerper came on the snow train Sunday and remained until Tuesday night, coming to visit her uncle Tom Ingley and to look after some business matters.

Old Pat, the Swing Horse

By Floyd Davis
CHAPTER FIVE

This chapter is the last of this series, about old Pat. There are so many experiences this pair had together, we could go on for some time with them. But any person that works on the streets of a large city, during the night, is bound to have many unusual experiences. When there is a horse like Pat along, it really adds a different approach to some of the experiences. One of the cutest things was, the girl on Walcott Street that would sit in a car with her boyfriend in a park near her home, and wait for the milkman to come along, then they would follow him to her house, and when he would get the milk off, she would sneak in. This happened most every Sunday morning about three A. M. I could never figure why the milkman made so much noise at this house?

One of the most heart rending things Pat did, happened on North as the Danish and English languages very fluently.

Emerson Bates has been appointed principal for West Point Military Academy and will soon report for examination. This favor came to Emerson thru the courtesy of Congressman Currie. He has already passed two mental examinations for the Naval academy but failed in physical because of a slight defect in one eye. The Navy requires the highest physical efficiency, especially of the eyes. The Army is not quite so exacting and the young man hopes to succeed this time.

Mrs. Oskar Hanson was hostess to fifteen ladies Saturday afternoon. The ladies spent the afternoon hemming handkerchiefs for the Red Cross. Mrs. Olaf Michelson was the guest of honor.

Oscar Deckrow has been honorably discharged from military service and arrived home last Thursday from Camp Custer.

Carson Street, early one Sunday morning. A car crashed into the back of the milk wagon and about 200 quarts of milk, crates, and ice came down on the milkman, knocking him to the bottom of the wagon, and unconscious. Pat was very frightened and gave a mighty jerk that pulled the front wheels and axel from under the wagon, and galloped off up the street. After going about three blocks, he turned around and trotted back to the wagon, according to a witness, and had his head in the door of the milkwagon trying to push crates and bottles from off the driver when the police arrived.

The driver of the car was too drunk to get out of it, and the police helped him into the squad car. You can be assured Pat had extra oats in his nose-bag from this time on.

Of course he did love to run away, and did many times. One time he took some bricks out of the corner of a competitive dairy on his way home. Another time he made it without trouble until he got clear back to the dairy barn, but he took the last corner too fast and wound up with his feet and the fills of the wagon sticking through the back of a parked car. He also liked to stop real quick in back of the city busses when they stopped at the curb in front of him, and he would let the fills run ahead of him and put two little dents in the back of the bus. I guess he resented the mechanical age, and this was his way of getting even.

As all life must come to an end sooner or later, Pat did. I'm sure he had many things to tell the other horses during his last days spent on a farm, in green pastures. And if there is a horse-heaven, I hope that old Pat, the swingman's horse, made it up the right street.

Through cold, snow-covered fields, underneath ice-encrusted trees, the river runs its course.

This brings to mind the Christian Church. It was founded upon the teachings of Jesus who lived His life and died His work unperturbed by the coldness of many of His fellowmen and of the ruling officials. He knew that His work would stand because it was founded upon truth. It not only stood, but has flowed steadily on for centuries. It is still going on today in His churches.

If you do not attend church services why not go this coming Sunday, and identify yourself with this steady flow of the best for which life stands?

There is always room in the river for one more drop of water. There is always room in the Church for one more worshipper.

THE CHURCH FOR ALL - ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly:

- (1) For his own sake.
- (2) For his children's sake.
- (3) For the sake of his community and nation.
- (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Secretary Freeman Announces New Credit Service For Low-Income Rural Families

A new credit service to help low-income families in rural areas raise their income was announced today by Secretary of Agriculture Orville L. Freeman as a part of the War on Poverty.

The new service will open up government credit aid for the first time to many low-income rural families who previously were unable to obtain either public or private loans to improve their earnings.

Beginning this week, the Secretary said, 1,600 U. S. Department of Agriculture local offices serving all rural counties will accept applications for loans up to \$2,500 to finance small family businesses, trades, services, and farming enterprises. His father's '65 Ford rides quieter than his father's Rolls-Royce

We know it's hard to believe a Ford could ride quieter than the famed Rolls-Royce. But it's a fact. Leading acoustical consultants conducted tests in which three V-8 powered Fords (Galaxie 500 Sedan, new Galaxie 500/LTD and LTD Hardtops) with automatic transmissions rode quieter than a new Rolls-Royce. The tests were certified by the U.S. Auto Club. Of course, the best test of all is to get behind the wheel yourself... and listen to a '65 Ford in action.

That's what Chuck's father did. Ford's quietness really impressed him. But it wasn't the quietness alone that sold him. He shopped around and found that Ford offers features and models and quality that simply aren't matched by other cars in its class. For example:

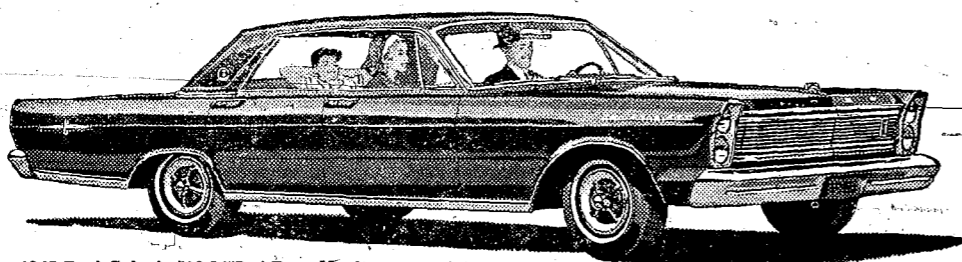

- 100% new body—strongest Ford body ever.
- New frame "tunes out" vibration.
- Decorator-appointed interiors in LTD's, thick nylon carpeting.
- More luggage space than in most competing cars—trunk holds four 2-suiters standing upright with room left over.

- Thrifty, quiet new Big Six—the biggest Six offered by any car in Ford's class... 289-cu. in. V-8 in XL's and LTD's.
- All automatic transmissions have three speeds, not two as in some competing cars—smoother shifting, more economy.
- Silent-Flo ventilation (in 4-door hardtops) provides fresh air in car with all windows shut.
- Handy reversible key works either side up.
- There's more... much more in a Ford than you'd expect for the money. Visit your Ford Dealer and take a test drive soon.

HEALTH DEPARTMENT NEWS

The monthly Staff Meeting of District Health Department No. 1 was held on January 6th at the Lake City courthouse.

The meeting was conducted by Dr. Georgia V. Mills, Director. Nurses, Sanitarians, and Clerks from Wexford, Crawford, Kalkaska and Missaukee Counties were present.

Items of interest and problems of the past month were reviewed. Infectious Hepatitis cases in the district were discussed by the staff. New programs proposed were more Well Baby and Immunization clinics in the rural areas. Expectant Parent classes to be offered, also, in Kalkaska and Crawford counties, and more extensive home nursing programs for the chronically ill, and mentally and emotionally disturbed persons.

Public Health speakers are available from the Health Dept. for clubs or PTA's writing in a request for a certain date and topic. The speaker will be assigned by Dr. Mills.

The annual inspection of Nursing Homes and Homes for the Aged will be completed this month by Dr. Mills, the nurses, and sanitarians. These inspections are made

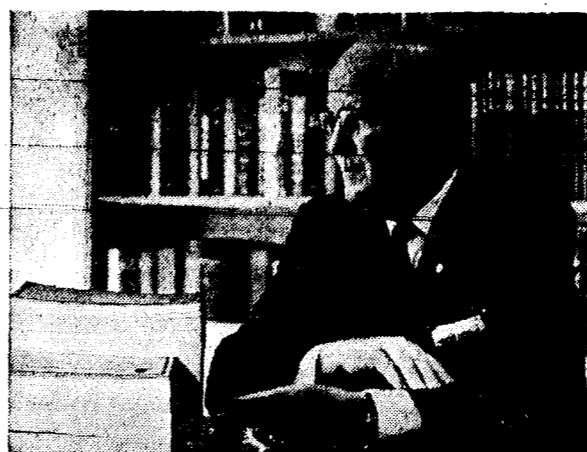

each year before new licenses are issued to the homes by the Michigan Department of Health.

Plans are in process for the Itinerant Chest X-ray Unit to be in the district every 3 months, instead of twice a year as in the past. This unit takes the large 14 x 17 X-ray, for persons with appointments.

Plans are also in process for the combined screening unit, which includes 70mm X-ray and blood tests for diabetes to be in the district the month of May.

The Board of Health of District No. 1 is composed of 2 supervisors from each of the 4 counties. These include Arno Plagens and Carl Freund of Crawford County.

The employees of District No. 1 from the Crawford county are: Mrs. Johanna Gorman, Public Health Nursing Supervisor and Mrs. Arlene Czuba, part-time clerk of Crawford county; Mr. Bruce Reynolds, Sanitarian working out of the Missaukee county office covers Missaukee, Kalkaska and Crawford counties. Dr. Georgia Mills, District Health Director works out of the central office in Missaukee county, but is responsible for the four county area.

Edward B. Moylan, Jr., Miami, Florida, President of Kiwanis International, points to some of the thousands of "blank checks of community service" which Kiwanis clubs will fill in and present to the mayors of their communities on January 21 to mark the Golden Anniversary of Kiwanis International.

Thursday, January 21, 1965, Kiwanis clubs in hundreds of cities and towns will present "blank checks of community service" to their mayors or other community leaders. Each will pledge the achievement of special projects during 1965, as the club's Golden Anniversary gift to its home town. Each presentation will come as a highlight of the Golden Anniversary meeting of the club.

The Golden Anniversary of Kiwanis will see some 285,000 members in fifteen nations of the free world joining together to thank their host communities for the opportunity of serving in the past, and to pledge continued service in the future. Kiwanis, which was founded in Detroit, Michigan, in 1915, now numbers more than 5,300 clubs in North America, the Far

East, the Caribbean, and Western Europe. It is a service organization for men, which has become one of the world's largest.

Details of Golden Anniversary were revealed here by Donald Jensen, President of the Kiwanis Club of Grayling.

Highlight, internationally, of the January 21st birth date will be a giant "anniversary celebration" in Detroit's Cobo Hall exposition center. More than 3,500 people, Kiwanians and their wives, from every area served by Kiwanis, will be on hand. Kiwanis International President Edward B. Moylan, Jr., of Miami, Florida, will give the principal address. Last living founder of Kiwanis, Harry A. Young of Detroit, will be specially honored.

Miss Barbara Cornell of Allen Park and four other ladies stopped Friday night to visit her parents, the Willard Cornells, on their way to spend the weekend at Boyne Mountain. They had planned to stop again on their way back but the snow and hazardous driving conditions prompted them to keep going.

Mr. and Mrs. Richard K. Nelson, Jon and Jan of Grand Rapids, spent the weekend visiting at the home of his parents, Mr. and Mrs. Earl Nelson. They also enjoyed some skiing and skating at the winter sports park.

The Mercy Hospital Auxiliary met Thursday, January 14th, and did its usual work of counting forms and folding hospital supplies. Reports were given by the various officers, covering the year, and then Mrs. William Heric, retiring president, turned the meeting over to the new president, Mrs. Jack Aled.

Buick Special V-6 goes easy on gas.

Its low price goes hard on your resistance.

We put 6 big reasons to buy a Buick Special under the hood. And another small one on the price tag. The six are a set of the liveliest, thriftiest cylinders that ever zipped you merrily on your way. They're all arranged in neat, smooth V-fashion. They add up to 225 cubic inches and 155 horsepower, and make other arrangements of 6 cylinders seem primitive. That's not all. Special sports Buick comfort, Buick style and traditional Buick quality. The price tag? We saved the best for last.

\$2343.00 Manufacturer's suggested retail price for Special V-6 4-dr. coupe. Price includes Federal Excise Tax and excludes dealer delivery and handling charges, transportation charges, accessories, other optional equipment, state and local taxes, license, title.

Wouldn't you really rather go first class?
